

Admin panel

1. Total sales(no change)
2. Total full I'd sale(no change)
3. Minimum I'd sale(no change)
4. View order's

Inside the page products entire description have to be shown there same as we given in the e commerce

5. Active users(No change)
6. In Active users(No change)

7. Total Users

- In total users the datas are showing wrong
For example
Logid-1-total left sales is showing 34
And right is showing 30
Actual sales are 36 left and 28 right
- Total pair matched is showing wrong(refer total pair matched page)
- Payout amount is showing correct data ✓
- Total left and total right is not working ✗
- Status is showing in active change it to active if the I'd is paid

1. This week income(No changes)

2. Total pair matched

- Add filter for this week pair matched
- I'd no 8 is showing wrong data I'd 8 has done 2 sales and the payout is showing 1000 instead of 500
- Log I'd 1-inside page this week pair matched is showing wrong instead of 3 pair matched it's showing 4

3.Refer bonus(No changes)

4.Booster Payout

Page view

Its showing wrong data

Booster payout referral name and I'd should be the person whome they have reffered and whose name the booster pay is out that name have to come there

For example:logid 1 got booster Referral but name and referral ID is wrong it is showing parent I'd name and log I'd instead of I'd 4 and Muhammed zayan log name it's showing the parent I'd always

- Same for I'd 18 also instead of showing 23.it is showing parent I'd 9

5.total products cost(No change)

6.this week income(Major issue)

- The figure is not showing
- The payout I'd is reflecting multiple time
I'd 1 is showing 4 times(Major issue)
- Id 8 is showing 0 pair matched and payout is showing 500
- Inside the page it's showing wrong data total pair matched is showing wrong. This week pair matched is showing wrong. For total pair matched accurate check total pair matched page it's showing correct data.
- Log I'd 8-(pair matched is showing 0 and payout us showing 500 which is correct. Inside the page pair matched is showing 0.5 for total pair matched and 0 for this week pair matched
Log I'd 4

7) **Total** purchase counts(no change)

8) Balance business sales of DS(no change)

9) Current Status(No change)

10) Level Achievers list (no change)

11) Total income (No changes)

12) total expenses (No changes)

14) income and exp chart(No changes)

15) **total purchase Details**

Log id 1 the sales is showing wrong for all the ids

Inside page view it's showing correct data but outside it's showing wrong data

Example:outside it's showing 14 but inside it is showing total sales is 64 which is correct data

Side bar

1. Genealogy

- After clicking the icon on the tree itsbot showing logid and logname
- Eligibility status is having grammar mistakr
You 2 need more reference
(You need 2 more reference) this has to come there

- Tree line are not proper

2. User profile

- Status is showing wrong it's showing in active for active id
- Aadhar card and opan card photo is uploading here
- After doing edit profile it's not updating it's not changing I tried change my namr it's not changing notifications is showing successfully changed but I'mnot able to csee any chamges
- I changed address from edit profile but it's not changed from user profile and view orders also

3. Bank request

The old history need to see

If a customer changed their old bank account to new then old bank account is missing it's not sshowin

4. Payout History

- It's showing user l'd wrong
- Payout history is showing unpaid amount also in the list as mentioned unpaid don'tshow it there before we give paid from payout

5. Waamfc

- It is showing total products cost heading after opening this there is no data
- Show there expired ids

6. Invoice details

- It's showing wrong id
- Name is showing half full name should be shown there

7. Sales promotion status

- Brochure is not uploading in the user panel

And major, issue is site is asking for resubmission. Error page is, coming always
